

Monarch HealthCare

Urgent Care

Real Life. Real Care.

Monarch HealthCare®
A MEDICAL GROUP, INC.

IN REACH. IN TOUCH. INDEPENDENT.®

When it's urgent, we're available.

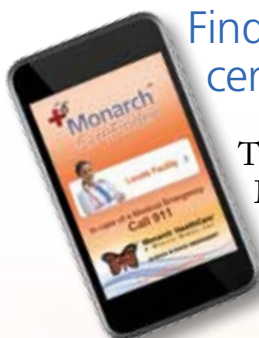

After-hours Urgent Care is available to you on a walk-in basis at over 45 centers in Orange County.

In life-threatening situations, call 911 or go directly to the nearest emergency room.

Emergency room visits may involve longer wait times because order of treatment is based on severity of illness, not arrival time. Urgent care centers are typically a more appropriate and faster means of treating non-life threatening, urgent medical conditions after hours.

Should you have a problem that is urgent but not life-threatening, you can visit any of the centers listed in this brochure.

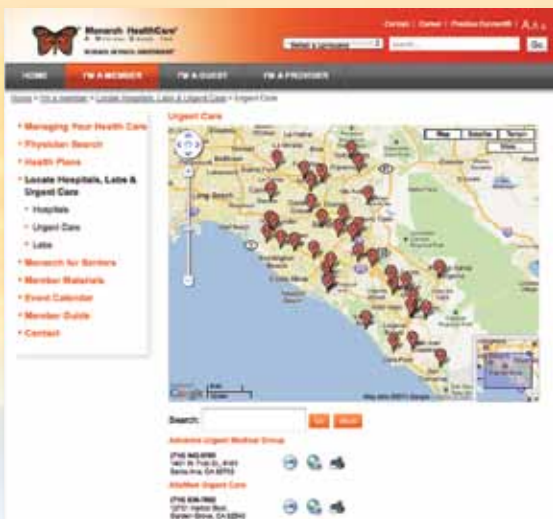

Find current Urgent Care centers on-line or in-hand.

This brochure list is current as of May 9, 2012, but did you know you can locate the latest information on Care Centers on our website, or your Smartphone?

Visit **MonarchHealthCare.com** and find maps and information on Hospitals, Labs and Urgent Care Centers. Or, download the Monarch CareFinder™ application to locate and map Urgent Care, Lab and Radiology centers nearest to your location on your Android™ or iPhone device.

Go to your Android™ or iPhone market and search Monarch CareFinder™, or visit our website for more information.

Even after hours, **healthy** looks good on you.

Urgent Care or ER?

Medical problems don't always happen during office hours. Urgent care is for illnesses that cannot wait until the next business day, but do not require the full resources of a hospital ER, such as:

- Shortness of breath caused by asthma or emphysema
- Stomach pain
- High fever
- Sore throat or ear aches
- Minor cuts, skin infections and rashes
- Minor fractures or broken bones

Call 911 or use an ER if you experience:

- Difficulty breathing
- Heavy bleeding
- Chest pain
- Sudden weakness or difficulty talking
- Severe head injuries
- Major burns
- Spinal injuries

Monarch HealthCare®
